

MARTIN AVDZHIEV

Software Developer

ABOUT ME

I have main knowledge in the field of cryptocurrencies and blockchain from an economic perspective. Thanks to this, I began to engage in programming.

WORK EXPERIENCE

Content Manager

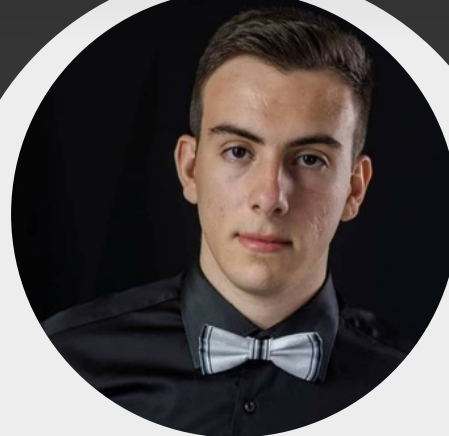

Crypto Revolution | remote | 17.01.22-Present

- Managing social media platforms (Facebook, Instagram, YouTube, Spotify) for Plamen Andonov, driving engagement and growth.

CERTIFICATES

- SoftUni JS Web Developer Diploma
- JS Programming Basics
- JS Programming Fundamentals
- JS Advanced
- JS Applications
- JS Back-End
- HTML & CSS
- React
- Angular
- Containers and Cloud
- TypeScript

Bitcoin

Price: 54276.33 USD

Bitcoin is a decentralized digital currency that revolutionized the world of finance. Created in 2009 by an anonymous individual or group known as Satoshi Nakamoto, Bitcoin operates on a technology called blockchain, which ensures transparency and security. Unlike traditional currencies, Bitcoin is not controlled by any government or financial institution, making it immune to inflation and censorship. Its scarcity is governed by a predetermined limit of 21 million coins. Bitcoin transactions are peer-to-peer, eliminating the need for intermediaries and reducing transaction fees. Its global acceptance has fueled its popularity as an investment and a means of payment, enabling individuals to have greater control over their finances.

Buy Bitcoin

Sell Bitcoin
